

JAMES & SON
PREMIUM HORSE FEED

The No.1 CHOICE FOR LEADING TRAINERS

HIGH-E HORSE MIX

The no.1 feed choice for leading trainers

A non-oat muesli mix blend of rolled and micronised grains, high in energy and vitamin E, formulated for horses that have problems digesting oats and other grains high in starch. High-E may also assist with horses prone to tying up syndrome.

Typical nutritional analysis (as fed):

Min Crude Protein %	18.00	Max Crude Fibre %	8.00	Energy (mjDE/kg)	13.50	Min Crude Fat%	6.00	Max Added Salt%	1.50
---------------------	-------	-------------------	------	------------------	-------	----------------	------	-----------------	------

HIGH-E HORSE MIX

Formulated and recommended for horses:

- In equine sport and performance.
- Requiring rapid recovery from strenuous work regime.
- With digestive problems and intolerance to a high starch diet
- Prone to tying up syndrome.

Typical nutritional analysis (as fed):

Min Crude Protein %	18.00	Max Crude Fibre %	8.00	Energy (mjDE/kg)	13.50	Min Crude Fat%	6.00	Max Added Salt%	1.50
---------------------	-------	-------------------	------	------------------	-------	----------------	------	-----------------	------

Feeding guide for High-E Mix:

- Horses in full work require on average 3kg to 6kg of **High-E** per day, in conjunction with a minimum of 1% of body weight of good quality pasture, hay and/or chaff.
- **High-E** is a highly digestible, non oat energy feed which may assist in the management of tying-up syndrome
- Introduce **High-E** in to the diet slowly over 7 to 14 days.
- Ensure all horses have access to clean and fresh water.
- Feed **High-E** by weight, not volume.
- If feeding more than 0.5% of **High-E** plus other grains per day, divide the total daily amount into two or more equal feeds.
- The feeding rates for **High-E** are provided as a guide only. The actual amount fed should be adjusted to the horse's current workload, temperament, body condition and climate.
- Do not add additional vitamins/minerals without veterinary consultation.
- The feed is a concentrate and not recommended for horses confined to stable and not receiving regular exercise.
- For further dietary and nutritional advice please contact James & Son.

Ingredients:

High-E Horse Mix includes faba beans, barley, maize, lupins, soy, Accomplish Horse Pellets, black sunflower seeds, oil, molasses, vitamins and minerals.
