Feeding Animals Since 1850

0800 MR FEED

J&S Custom Blends

HIGH PERFORMANCE FEED SUPPLEMENTS AT COMPETITIVE PRICES.

Understanding the challenges faced by today's farming community, James & Son offers an extensive range of affordable co-product energy and protein meals, pellet feeds, liquid feeds and customised rations.

By specifically designing blends to compliment your on-farm feed available will enable you to maximise performance and profit, at the same time provide the nutritional needs for your livestock.

FEEDING GUIDE:

Feeding J&S Custom Blends can be used as part of the annual feed plan as well as day to day basis. This can help to balance feed demand against current pasture growth and cover.

J&S Custom Blends can also be used to sustain longer lactations, increase animal production and improve pasture utilisation.

J&S Custom Blends can be used to increase weight gain and performance of livestock.

J&S Custom Blends can help milk production, cow condition and pasture availability and quality. Note: the effect on milk production may not be immediate.

MINERALS:

James & Son have in stock and use multiple minerals and mineral brands. They can be added to your blend at the rate(s) you require. We can also blend in any specific mineral of your own requirements on request.

AVAILABILITY:

J&S Custom Blends are available on a long term and regular basis for customers wishing to secure an ongoing supply. Clients can choose to purchase J&S Custom Blends on a spot basis subject to availability or enter a contract ensuring guaranteed supply.

WHY USE JAMES & SON:

Localised knowledge, progressive manufacturing methodologies and an integrated nationwide delivery network ensure reliable uninterrupted supply of premium quality stockfeed solutions throughout the entire year.

ADDITIONAL NOTES:

This information should be used as a general guide only. Please ask your J&S Technical Feed advisor about a diet check or consult with your nutritional advisor to determine the appropriate needs for your animals.

This product does not contain restricted animal material. And is safe for lactating animals.

A QUALITY CO-PRODUCT ENERGY/PROTEIN SUPPLEMENT FEED
