Part of  Castlegate James Australasia

GMO & Palm Kernel Free

J&S Hipro Gold comes in a meal or pellet. A high energy/protein/starch product widely used in dairy goat industry. Also suitable for dairy cow, beef, pig and poultry rations as well as supplementary feeding.

BENEFITS:

Unique energy source blend

Starch, sugar and fat content provide a safe feed with a reduced chance of acidosis, without sacrificing live weight gain or milk production.

Sweet palatable taste

Encourages dry matter intake crucial to increasing milk production and live weight gain.

Improved utilisation

Steam conditioning of the J&S Hipro Gold Pellets helps to gelatinise the starch content, therefore improving digestion and efficiency.

Tailored design

J&S Hipro Gold Meal/Pellet is tailored to compliment grass, hay or good quality silage/balage.

Minerals

A variety of Mineral brands and products are available and can be added at the rates required. This promotes optimum animal health and will also save you time and money.

FEEDING RATES:

Please consult with your local J&S Technical Feed Advisor or your nutritional advisor about recommended feed rates. We suggest you ensure proper transition over an extended period and offer access to quality fibre. We also strongly encourage you to ensure fresh water access at all times.

AVAILABILITY:

J&S Hipro Gold Meal/Pellet is available on a long term and regular basis for customers wishing to secure an ongoing supply. Clients can choose to purchase Hipro Gold Meal/Pellet on a spot basis subject to availability or enter a contract ensuring guaranteed supply.

WHY USE JAMES & SON:

Localised knowledge, progressive manufacturing methodologies and an integrated nationwide delivery network ensure reliable uninterrupted supply of premium quality stockfeed solutions throughout the entire year.

ADDITIONAL NOTES:

This information should be used as a general guide only. Please ask your J&S Technical Feed advisor about a diet check or consult with your nutritional advisor to determine the appropriate needs for your animals.

This product does not contain restricted animal material. And is safe for lactating animals.
