Part of  Castlegate James Australasia

James & Son PK Infusion is a loose meal, blending J&S Cookie Crumble, sugars and Palm Kernel.

BENEFITS:

Palm Kernel with a punch. Safe to feed in troughs and trailers.

One of the cheapest ways to get energy, starch and sugars in the diet. Designed for feed pad and trough applications. (Not suitable for Silos).

J&S PK Infusion is a combination of Cookie Crumble, Sugars and Palm Kernel that creates a super charged blend, but safe for ab-lib feeding.

The sweet palatable taste of PK Infusion encourages dry matter intake, crucial for increasing milk production and live weight gain.

A variety of Mineral brands and products are available and can be added at the rates required.

This promotes optimum animal health and will also save you time and money.

FEEDING RATES:

Please consult with your local J&S Technical Feed Advisor or your nutritional advisor about recommended feed rates. We suggest you ensure proper transition over an extended period and offer access to quality fibre. We also strongly encourage you to ensure fresh water access at all times.

AVAILABILITY:

J&S PK Infusion is available on a long term and regular basis for customers wishing to secure an ongoing supply. Clients can choose to purchase J&S PK Infusion on a spot basis subject to availability or enter a contract ensuring guaranteed supply.

WHY USE JAMES & SON:

Localised knowledge, progressive manufacturing methodologies and an integrated nationwide delivery network ensure reliable uninterrupted supply of premium quality stockfeed solutions throughout the entire year.

ADDITIONAL NOTES:

This information should be used as a general guide only. Please ask your J&S Technical Feed advisor about a diet check or consult with your nutritional advisor to determine the appropriate needs for your animals.

This product does not contain restricted animal material. And is safe for lactating animals.
