Our specially formulated J&S Sweet Calf/Kid Product range is blended products and pellets made to meet all the protein and energy requirement for growing calves and kids.

BENEFITS:

With the demands on making sure you get the best growth results, it is now more important than ever having the correct feed. This is one thing you can control in the life cycle of the calf and kid. Working together with your J&S rep to find the best range of calf/kid meal requirements for your farm.

Calves and Kids require both milk and meal for not only nutritional benefit and vital emanate from bugs like coccidiosis, but also the development on it stomachs.

One of the key elements with calf/kid feed is the palatability, as this drives intake. J&S Sweet calf/kid products are developed with this in mind with exclusive by-products with proven palatability excellence.

WITHHOLDING PERIOD: NIL.

If medicated products are used in blend, please follow instruction on daily feed rates or risk poisoning

Bovatec® is present in the meal for Coccidiost control.

FEEDING RATES:

Please consult with your local J&S Technical Feed Advisor or your nutritional advisor about recommended feed rates. We suggest you ensure proper transition over an extended period and offer access to quality fibre. We also strongly encourage you to ensure fresh water access at all times.
