Part of  Castlegate James Australasia

Soya Bean Meal is a high quality protein source with excellent levels of by-pass proteins and also high in energy. Inclusion of Soya Bean Meal in supplementary feed diets is widely used as part of TMR blends.

### DESCRIPTION:

Soya Bean Meal is the by-product of the extraction of oil from Soya Beans. It is probably the best quality vegetable protein source widely used around the world.

It is high in protein and energy and has a good amino acid profile, being high in lysine, although methionine is low. 95% of the nitrogen present is true protein making it ideal for all livestock.

High in phosphorus of which 50% is available.

### Palatability

Extremely palatable.

### Economically competitive

Soya Bean Meal is an economically competitive source of protein. It requires no additional processing.

### FEEDING RATES:

Please consult with your local J&S Technical Feed Advisor or your nutritional advisor about recommended feed rates. We suggest you ensure proper transition over an extended period and offer access to quality fibre. We also strongly encourage you to ensure fresh water access at all times.

### AVAILABILITY:

J&S Soya Bean Meal is available on a long term and regular basis for customers wishing to secure an ongoing supply. Clients can choose to purchase Soya Bean Meal on a spot basis subject to availability or enter a contract ensuring guaranteed supply.

### WHY USE JAMES & SON:

Localised knowledge, progressive manufacturing methodologies and an integrated nationwide delivery network ensure reliable uninterrupted supply of premium quality stockfeed solutions throughout the entire year.

### ADDITIONAL NOTES:

This information should be used as a general guide only. Please ask your J&S Technical Feed advisor about a diet check or consult with your nutritional advisor to determine the appropriate needs for your animals.

This product does not contain restricted animal material. And is safe for lactating animals.
