# Sweet Tap Gold

**Sweet Tap Gold is a blended product made to order for the different seasonal requirements and budget.**

With the demands on a modern cows now more important than ever, having the correct feed is one thing you can control. Working together with your J&S rep to find the best meal for your farm requirements.

Cows rely on rumen Microbes to convert components into usable sources of energy and protein. Having the correct ferment carbohydrates to feed microbes and the correct Rumen degradable protein present is a essential for better production. Other important aspects like fiber content to help stimulate gut movement and healthy microbial population.

Utilizes Tapioca and J&S Cookie Crumble for great carbohydrate energy with premium protein meal, PKE and molasses to make a well round and very palatable meal.
