Part of **Castlegate James** Australasia

Tapioca is a tuberous root grown for its starch content. Inclusion of Tapioca in supplementary feed diets is widely used as part of TMR blends.

DESCRIPTION:

In dairy cows, it can support high milk yields because of its high starch content. However, because it is low in protein, Tapioca has to be properly complemented with a protein source.

Tapioca is a good feed for early lactation when there are high protein levels in pasture.

Tapioca is a high quality energy supplement. The risk of acidosis is high due to the high starch content and the finely ground nature of the feed before being pelleted.

If cows are allowed ad-lib access there is a significant risk of rumen acidosis.

Palatability

Tapioca is best fed in a TMR rations. For maximising Tapioca potential it is best fed alongside a quality protein source.

Economically competitive

Tapioca is an economically competitive source of energy and starch when compared to grains. It requires no additional processing.

FEEDING RATES:

Please consult with your local J&S Technical Feed Advisor or your nutritional advisor about recommended feed rates. We suggest you ensure proper transition over an extended period and offer access to quality fibre. We also strongly encourage you to ensure fresh water access at all times.

AVAILABILITY:

J&S Tapioca is available on a long term and regular basis for customers wishing to secure an ongoing supply. Clients can choose to purchase Tapioca on a spot basis subject to availability or enter a contract ensuring guaranteed supply.

WHY USE JAMES & SON:

Localised knowledge, progressive manufacturing methodologies and an integrated nationwide delivery network ensure reliable uninterrupted supply of premium quality stockfeed solutions throughout the entire year.

ADDITIONAL NOTES:

This information should be used as a general guide only. Please ask your J&S Technical Feed advisor about a diet check or consult with your nutritional advisor to determine the appropriate needs for your animals.

This product does not contain restricted animal material. And is safe for lactating animals.
