Metabolisable Energy	11MJ/kg	Phosphorus (min)	0.5%
Crude Fibre (max)	12%	Salt (max)	1%

### Ingredients:

Mi-Feed focuses on providing premium balanced products covering each animal's nutritional requirements to the highest standards. Pasture Boost Pellets include cereal grains (barley and sorghum), millrun, barley malt combings, soy bean meal, sodium bentonite, limestone, di-calcium phosphate and salt.

## Feeding guide

Hobby Farm Mix must be introduced to animals slowly over a period of 14 days.

The feeding rate of Hobby Farm Mix will be determined by the animal being fed, their condition, production requirements and availability of good quality roughage (grass and or hay).

## Availability

Mi-Feed Products are available on a long term and regular basis for customers wishing to secure an ongoing supply. Customers can choose to purchase on a spot basis subject to availability or enter a contract ensuring guaranteed supply.

## Additional notes

This information should be used as a general guide only. Please consult with your nutritional advisor to determine the appropriate needs for your animals.
