

# Roasted Beef Flakes

A high energy ration designed for maximising growth

Available in:

<b>BULK</b>	<b>1T BULK BAGS</b>	<b>QLD</b>
<b>BAG 20kg</b>	<b>QLD   NSW   VIC</b>	

Mi-Feed is supported by leading animal scientists supplying you with a quality product to ensure best possible productivity and profit from your Beef Cattle. Roasted Beef Flakes has been designed to maximise fattening of beef cattle. Roasted Beef Flakes is to be fed in conjunction with pasture and/or hay.

Suitable for:

All the cereal grains used in manufacturing roasted beef flakes are micronised and flaked in order to ensure maximum rumen starch digestibility. This together with the use of the rumen modifier Bovatec improves growth rates and feed conversion efficiencies. Bovatec also aids in reducing the risk of rumen acidosis. High levels of molasses not only improves palatability but also reduces dusty fines in the ration.

Nutrient Analysis:			
Crude Protein (min)	10%	Salt (max)	1.0%
Equiv Crude Protein (max)	3.0%	Urea (max)	2.0%
Metabolisable Energy	11.5MJ/kg	Copper (added)	8.0mg/kg
Crude Fibre (max)	8.0%		

**Ingredients:**  
Mi-Feed focuses on providing premium balanced products covering each animal's nutritional requirements to the highest standards. Roasted Beef Flakes include cereal grains (barley, sorghum, maize), soy bean meal, molasses, sodium bentonite, urea, limestone, di-calcium phosphate, salt and a specialized mineral and vitamin premix.

### Feeding guide

Day 1-5: Feed good quality hay (eg. shredded Lucerne)  
Day 6-14: Start cattle a smaller amount, gradually increasing to a maximum of 2.5% of the animal's body weight. Then feed to appetite, ensuring cattle have access to fresh, clean water at all times

### Availability

Mi-Feed Products are available on a long term and regular basis for customers wishing to secure an ongoing supply. Customers can choose to purchase on a spot basis subject to availability or enter a contract ensuring guaranteed supply.
