ALL REGIONS

Castlegate James Hi pro Energy is an excellent high energy and starch product with a great source of protein. The added benefit with Hi pro Energy on its own, is that it's GMO & Palm Kernel free.

Suitable for:

Hipro Energy

Castlegate James uses the best uniquely sourced high energy and starch products available creating a sweet palatable taste that encourages dry matter intake, crucial for increasing milk production and live weight gain.

Hipro Energy is tailored to compliment grass, hay or good quality silage/bailage. Suitable for in-shed feeding in silos or part of a TMR diet.

Feeding guide

Please consult with your local CJNZ Key Account Manager or your nutritional advisor about recommended feed rates. We suggest you ensure proper transition over an extended period and offer access to quality fibre. We also strongly encourage you to ensure fresh water access at all times.

All information is presented in good faith and to the best of our knowledge and resources; however variation in values and outcomes of feeding this product may occur.

Availability

Hipro Energy is available on a long term and regular basis for customers wishing to secure an ongoing supply. Clients can choose to purchase Hipro Energy on a spot basis subject to availability or enter a contract ensuring guaranteed supply.

Additional notes

This information should be used as a general guide only. Please ask your CJNZ Key Account Manager about a diet check or consult with your nutritional advisor to determine the appropriate needs for your animals.

This product does not contain restricted animal material and is safe for lactating animals
